

## Framing Services

### Multi Family

The multi family division has completed over 7,000 units of 5 story Type III construction, establishing our company as the most experienced Type III framer in the state.

We have also completed a multitude of 2 to 4 story type V projects, from 2 and 3 story walk ups with wide open spaces, to tight inner city infill projects that require intense coordination with the builder and suppliers to keep project on schedule. Utilization of tower cranes, when they are required, are one of our strengths. The President and founder has worked with tower cranes since 1984, when they were first brought into the state.

We are proud to be "team players" on every project, striving to make each job operate as smoothly as possible.

The Multi-family Division foremen are exclusive to the industry and have 10 to 40 years of multi-family experience.

Our estimating department has over 40 years of experience in the field.

Areas of coverage: Los Angeles , Ventura and Orange counties. Housing

The housing division specializes in facilitating top 10 national home builders such as: KB Homes, Centex, Richmond America, K. Hovnanian Forecast Homes, DR Horton, Frontier Homes and Standard Pacific.

Areas of coverage: Los Angeles, Ventura, Orange, San Bernadino, Riverside and Kern counties with foreman and crews for each. Value Engineering

Our experienced team utilizes value engineering in an effort to reduce cost. Our value engineering service is free and prefer to be involved as soon as possible in order to provide the most input possible. We have an excellent working relationship with the largest most respected architects and engineers in Southern California.
